

ELEGANCE 2023

---

#wohnfühlen

# A dream come true

To choose an Elegance is to make a statement. About living, comfort and generous amounts of space. It gives you both the room and the freedom to enjoy your usual lifestyle while on the road. With an unwavering eye for the details, we have created a motorhome that will always feel like home – wherever you go.

# Enjoyable moments

The enticing aroma of fresh herbs, warm farmhouse bread fresh from the bakery around the corner, served with other regional delicacies... A holiday should be a pleasure for all the senses – starting with breakfast in the morning right through to a glass of wine in the evening, to mark the end of another eventful day. Whether as a couple or with friends.

# Spacious and Relaxing

It's getting late. Time to wind down and reflect as another wonderful day draws to an end. The spacious interior of your Elegance simply invites you to kick back and relax. Whether you prefer the fold-down bed or the royal suite in the rear – the choice is yours.

*More information about  
the Elegance is available at  
[www.buerstner.com/uk](http://www.buerstner.com/uk)*

## An eye for detail

The harmonious interplay of colours, shapes and materials is highlighted by numerous light sources. They are optimally positioned throughout the vehicle to place everything in the right light. Soft light surrounds you at every turn inside the Elegance, filling the space with an unparalleled feeling of comfort.

# They make the difference

Modern lines, pleasant surfaces and discreetly illuminated materials: The newly designed interior features numerous skilfully placed details that give the space a unique character. In addition, the bathroom, living room and bedroom are packed with refined features that really make the difference. This is #wohnfühlen with all of your senses.

## Cleverly solved

While on the road, you need plenty of space for large and small objects alike. The Elegance offers myriad storage options in combination with a range of functional equipment. After all, you should always enjoy a feeling of comfort and safety while travelling.

*Lots of highlights!  
Among other things, space for  
a 32-inch TV with a practical  
adjustable bracket.*

# More comfort, more freedom

You can look forward to the INDUS toilet, which is available as standard from Bürstner. With its modern design, it offers an intelligent and fully automatic sanitary system that virtually empties itself. In accordance with this resource-saving concept, grey water is treated with sanitary additives and then used to flush the toilet. For two people, this allows self-sufficiency for up to one week. Real-time information can also be viewed on your mobile phone. In addition, an odor converter developed by Bürstner can be installed in the toilet area. It binds unpleasant smells for a long time and exudes a subtle fragrance (Bürstner accessory "OTZ").
