

Press Release

Kehl, 20th of July 2022

Bürstner Lyseo TD model redesigns

Bürstner's semi-integrated model range Lyseo TD will in part be redesigned for the new season. Two new layouts with a settee-settee lounge set-up and a generous fold-down bed.

Kehl. For the new season, the Lyseo TD model range will be slightly redesigned and extended by two new comfortable layouts.

The two new settee-settee layouts

The two new layouts this model range will feature in future are called TD 594 and TD 684 G. What they have in common: Both of them have a homely settee-settee lounge i.e., a transverse seating area with two bench settees facing each other and two seats with seat belts.

With a length of 599 cm, the new TD 594 offers the same rear washroom situation as the well-known TD 590. What is new, however, is that the generous drop-down bed can be used either transverse or lengthways. Used as a generous transverse bed, it measures 200 x 140 cm; used lengthways, it measures 200 x 195/140 cm. Also new is the kitchen layout, and the settee-settee lounge. Optionally, the bench seating also converts into a bed.

The new layout TD 684 G is 689cm long. In view of these measurements, Bürstner was able to create a generously sized settee-settee situation with a third and a fourth seat. The rear washroom features a separate shower and a large wardrobe. The rear garage is located underneath the latter. Again, a generous drop-down bed that can be used either transverse or lengthways is a standard feature, which in the lengthwise bed function reaches dimensions of 200x210/140 cm. (LxW/B).

Harmony Line is now a pack

In the current model year, the Lyseo TD Harmony Line is still a separate model range. In the upcoming model year, the Lyseo TD Harmony Line model range will be integrated into the Lyseo TD model range as the Harmony Line Pack, with slight changes to the pack contents. Some of the features included in the pack are: 16" alloy wheels, cab blackout blinds, a

leather steering wheel and leather gear knob, pilot seats upholstered in the same fabric as that used in the habitation, Traction Plus, aluminium window frames, premium XL habitation door including cab and habitation door central locking system, and many other comfort elements.

"The Lyseo is an extremely important model range for us," adds Managing Director Jens Kromer. "Next season, our Lyseo family will be complete. On the one hand, we now have the semi-integrated Lyseo TD and the new semi-integrated Lyseo Gallery TD with an inflatable over-cab alcove. Our new Lyseo I, a coachbuilt, integrated motorhome, perfects the Lyseo spectrum with an upper segment option. In product strategy terms, it was important to us to complete our offer in this segment. Our customers can view the entire Lyseo family at this year's Caravan Salon 2022 in Düsseldorf, where they'll find us in Hall 6."
