EVERYTHING. AT A GLANCE.

THE AERO DESIGN

ERIBA caravans are models of efficiency – thanks to the aerodynamically shaped front with its rounded edges. The body shape – unique in caravan construction – boasts a timeless elegance and comes with numerous benefits: lower air resistance for better fuel economy, much improved driving safety and optimal roadholding characteristics. With this compact touring pro, you can now holiday with greater safety, economy and – not least – style.

SMALL TOWING VEHICLES

A great choice for first-time campers – thanks to its compact dimensions and low laden weight, the ERIBA Touring is also ideal for smaller towing vehicles and category B licence holders (passenger cars).

LOW FUEL CONSUMPTION

The aerodynamic front, consisting of the streamlined tubular steel construction, ensures low air resistance and thus reduced fuel consumption.

INTERIOR CLIMATE

The pop-top roof provides fresh air in the caravan and thus creates the perfect room climate thanks to the pop-top roof window, which is made of canvas material.

INDIVIDUALITY

An open road for your personality – choose from different exterior colours, various interior designs and matching fabric combinations as well as sophisticated Original Accessories to make your caravan truly your own.

DRIVING SAFETY

The unique design principle derived from aircraft construction, consisting of a robust steel tube cage with aluminium sheathing, and the compact vehicle dimensions offer perfect roadholding characteristics and thus outstanding driving safety.

STORAGE SPACE

Despite its compact dimensions, the Touring offers plenty of storage space thanks to all-round overhead lockers and intelligent space solutions.

Note: some of the equipment shown is optional and depends on the model range/layout.

TOURING

LOW PROFILE, HIGH STANDARDS.

When on the road, the world changes with every kilometre and often leaves you in a permanent state of wonder. When it comes to change, the ERIBA Touring is the perfect companion. Thanks to the practical pop-top roof, it can be transformed in no time at all. Although much has changed on the inside since 1957, it has always remained true to its original design with its aerodynamic front and unique body shape.

Touring 530

Touring 540

Holiday greetings from the kitchen.

Despite its compact dimensions, the kitchen offers a generous work surface. This space can be further extended via the glass lid of the cooker and an optional sink cover. Crockery, pans and food can be tidily stored away in the cabinet underneath the kitchen worktop. The 2-burner hob, which features flame protection and a glass cover plate as standard, leaves nothing to be desired in terms of culinary delights. And your ingredients will stay nice and fresh inside the practical, integrated refrigerator with a capacity of 81 litres.

Everything has its place. Including you.

The front seating area in the living area is not only extremely comfortable, but also offers plenty of storage space for all your essentials.

Space to dream of.

The bed is the most welcoming place of all. And if it also offers storage space – all the better! Concealed under the fixed rear bed in the sleeping area of the ERIBA Touring 310, 430, 530, 542 and 550 layouts is a huge storage space which can also be loaded from the outside via the optionally available locker door. This ensures easy access to everything you need whenever you head out.

For the Land of Nod (and 193 other countries).

Fall asleep blissfully and wake up totally refreshed – all over the world. The cold foam mattresses with soft drill covers provide maximum sleeping comfort. The practical arrangement of the beds not only helps you relax, but also makes life easier if you want to stow something underneath them.
